---

## Summary

Strong experience and intuition for software architecture, object oriented, and functional design. Ability to build complete solutions for application design, development, delivery, and support.

## Skills

Java	Linux	OOP
CI/CD	Docker	TypeScript/JavaScript
Git/Mercurial	Web Applications	Microservices
Node.js	SQL	Gradle

## Experience

### **Senior Software Engineer**

*April 2017 – Present*

*ThoughtWorks, Inc, San Francisco, California*

- Provisioned cloud eventing system and integrated retail fulfillment service's notification system to allow users more control over their notifications
- Created FHIR standards compliant API layer in front of Electronic Medical Record (EMR) legacy system to dramatically ease integration for front-end developers
- Divided monolithic repository to allow teams to build and release independently and more frequently

### **Software Engineer**

*October 2012 – March 2017*

*Commerce Technologies, LLC, Albany, New York*

- Automated release process enabling monthly releases to become daily
- Appointed to a small team of developers in reducing technical debt from legacy code
- Led development effort to integrate an API for downloading generated packing slip PDFs
- Pioneered new interview process and developed a pair programming stage

### **Software Developer**

*November 2011 – October 2012*

*M.M. Hayes Company, Inc., Albany, New York*

- Conceived and developed prototype JavaScript replacement for legacy swing Java applet

## Education

### **B.Sc. Computer Science**

*December 2011*

*SUNY Polytechnic Institute, Utica, New York*

- Dean's List

## Personal Projects

### **diff-info-service**

*Lightweight API to a [unified diff parsing library](#). Accepts unified diffs and returns information about the diffs metadata (file names, type of change, etc.).*

### **docker-ci-prototype**

*A proof of concept CI server which uses docker containers as the underlying method of running a build.*

### **mint-expensified**

*CLI tool for finding transactions reimbursed on expensify and labeling them as reimbursed on mint.com.*

**Interests** - Soccer, running, motorcycles

*References available upon request*
